Ordering the Software

To know more about **Stellar Repair for Access**, click [here](#).

To purchase the software online, please visit <https://www.stellarinfo.com/database-recovery/access-recovery/buy-now.php>

Alternatively, click on Order icon in **Help** Menu on Menu Bar to purchase the software online.

Select either of the methods given above to purchase the software.

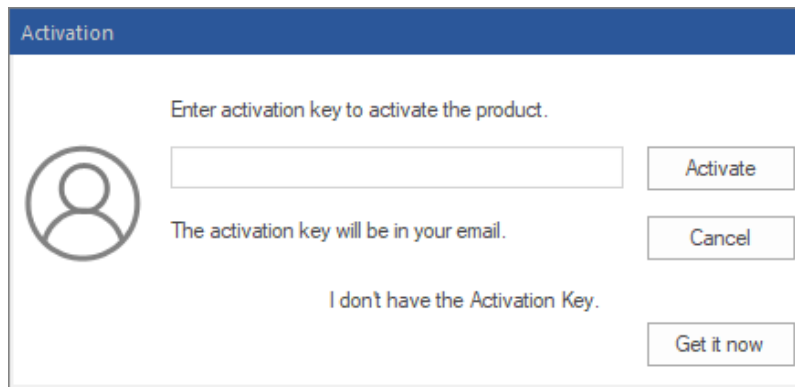

Once the order is confirmed, a serial number will be sent to you through e-mail, which would be required to activate the software.

Activating the Software

The demo version is for evaluation purpose only. You need to activate the software to use its full functionality. Use the Activation Key received via email after purchasing the software to activate it.

To activate the software

1. Run demo version of **Stellar Repair for Access** software.
2. Click the **Activation** button. **Activation** window is displayed as shown below:

The screenshot shows a dialog box titled "Activation". It contains the following elements:

- A blue header bar with the text "Activation".
- A prompt: "Enter activation key to activate the product." followed by a text input field.
- A button labeled "Activate" to the right of the input field.
- A circular icon containing a person silhouette to the left of the input field.
- A second prompt: "The activation key will be in your email." followed by a button labeled "Cancel".
- A third prompt: "I don't have the Activation Key." followed by a button labeled "Get it now".

3. If you don't have the activation key, click **Get it now** button in the window to purchase the software.
4. Once the order is confirmed, an Activation Key is sent to the email that you have provided while purchasing the software.
5. Paste or type the Activation Key (received through email after purchasing the product) and click **Activate** button (Please ensure an active Internet connection).
6. **Stellar Repair for Access** automatically communicates with the license server to verify the entered key. If the entered key is valid, activation is completed successfully.
7. '**Activation completed successfully**' message is displayed. Click **OK**.

Updating the Software

There are periodical software updates for **Stellar Repair for Access**. Using the update option, you can check for both latest minor and major version available online. You can easily download the minor and major version through the update wizard. While updating the software, it's recommended to close all the running programs.

To start Stellar Repair for Access Update Wizard:

1. Run **Stellar Repair for Access** software.
2. Select **Update** from **Tools** Menu.
3. **Update** window pops up.
4. **Update** window pops up.
5. The wizard will start searching for the latest updates and if it finds any new version, a window will pop up indicating the availability an update.
6. Click **Next** and the software will start downloading update files from the server. When the process is complete, the software will updated to the latest version.

Live Update may not happen due to following reasons:

- Internet connection failure
- Unable to download configuration files
- Unable to locate updated files or version
- Unable to locate executable file
